

# Union Pacific Tower 55 Rail Intersection

Fort Worth, Texas

Tower 55 is one of the nation's busiest rail intersections, handling more than 100 trains per day. Located just south of downtown Fort Worth, Texas, Tower 55 holds vital national and international significance, connecting freight and passenger travel between the West Coast, Southeast, Midwest, Gulf Coast, Mexico and Canada.

The new intersection and improvements will boost the local economy, create jobs and tie together the fastest growing markets in Texas.
